- ✓ Quarterly full day workshops
- ✓ Personal coaching sessions
- ✓ Online accountability sessions
- ✓ Accountability partners
- ✓ Each workshop includes an executive guest speaker

ABOUT ACCELERATED LEADERSHIP

Women face a range of disadvantages in trying to achieve career success and so the Accelerated Leadership programme has been designed to overcome them. It provides women who are unapologetically ambitious, a confidential environment that brings tools and techniques alive through the sharing of real-life experiences with other professional women who have faced similar challenges.

Facilitated by an independent chair and executive coach who harnesses the power of these shared experiences, increases self-awareness, enables strategic thinking and develops leadership styles by way of supportive challenge, unbiased insights and 'wise counsel'.

"It's taken over 20 years, only now do I feel I'm finally operating at my full level of potential." **Angela Malik, Founder & CEO, Planet Nourish**

"After each session you really do leave feeling you can conquer anything. Jackie works with you to make it happen and the other ladies on the course are always there to help, advise and encourage. It really is very refreshing." **Paula Jepmond-Senior, Founder, Fusion by Design**
